### Why is the fund in this category?

Funds of category 5 have shown in the past a medium to high volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 5 might be subject to medium to high price fluctuations based on the historical volatilities observed.

Due to the fact that the Sub-Fund may invest into the China A-Shares market via Shanghai-Hong Kong Stock Connect, various additional risks which include but are not limited to regulatory risks and suspension risks may thereby be caused and should be emphasised to the general investment and equity related risks.
